

FOR SMALL CHURCHES

A church website you never have to touch.

I build it, keep it running, and come to your church with a camera. You review and approve. That's the whole job on your end.

A real client site: Soul Studio Ministries, Rev. Dr. Stephen P. West

1**Call or text me.**

Twenty minutes. No forms, no obligation.

2**I come to you.**

One visit with a camera: your people, your pastor, a short welcome video.

3**Live in 2–3 weeks.**

I host it, update it, and keep it running all year.

“So much more user-friendly than navigating Squarespace. He will take good care of me and make my life easier.”
